ABOUT NICK MUNRO

Nick Munro is a British design brand creating tableware, barware and home accessories built for daily use. Working primarily in 18/10 stainless steel, alongside pewter and silver plate, we design products made to be handled, used and enjoyed for years rather than seasons.

Since 1987, every piece has started with the same question: how it feels in use. How it pours, how it sits in the hand, how the weight settles when it's set down. Form follows function, with every design refined through handling before it's judged by eye.

Working closely with skilled manufacturers, we create collections chosen for their quality, longevity and timeless appeal. The result is a range trusted by the world's most prestigious hotels and restaurants.
